

Woodville Gardens School (B-6) Children's Centre
Preschool Quality Improvement Plan
Improvement as Learning- 'being the best at getting better'

Our Goal:

'To increase children's ability to reflect on, revisit, build on ideas and share their thinking'.

How will we know we have achieved this?

In our observations of children's play and analysis of Pedagogical Documentation we will see children:

- ☐ *Revisiting their learning*
- ☐ *Making connections and transferring their learning*
- ☐ *Sharing their learning with others*

We will:

- *Build on our collective knowledge and expand use of floorbooks to document and follow children's learning.*
- *Build capacity of staff to lead extended conversations with children, starting with levels of questioning and questioning techniques to support children to make meaning of their own learning and express their ideas.*
- *Continue to develop skills and learning in Pedagogical Documentation with a focus on learning dispositions*
